FLORIDA PERMIT NOTES

We have a permit from the Florida State Plant Board to ship our stock into Florida.

We have prepared a special lot of 3-inch Lantanas, Coleus, Salvia, Fuchias, Alternantheras, Achyrantheras, Heliotrope, and Geraniums to meet the Southern demand.

PALMS, KENTIA, BELMORIANA.

We are offering a good stock of Kentias, that are clean and healthy, grown cool and with sufficient room to make a natural spreading growth, they will not compare in height with stock that is grown close with the object of getting height by sacrificing sturdiness. The pot sizes are shipped without pots.

Belmoreana—Single Plants.

DESCRIPTION
of
Iris Mother of Pearl

STANDARDS and falls pale bluish lavender, with a faint creamy undertone. Large flowers of perfect form and exceptional substance. The creamy undertone of this exceptional substance often assumes the luster and iridescence which we see in the beautiful lining of many sea shells which produce mother of pearl. The plant is tall, a vigorous grower and a profuse bloomer.

Mother of Pearl is a real gem of beauty, an aristocrat among Irises. Its splendid iridescent color, its perfect form, its vigorous growth and wonderful substance have won for it recognition as one of the world's best Irises. This variety is included in every Iris collection of merit in the United States, and should be in your Iris section.

DAHLIA SHOW

WE EXPECT TO HOLD OUR DAHLIA SHOW

OCTOBER 3, 4, 5, and 6th.

OUR FIELDS WILL BE OPEN TO VISITORS AFTER

SEPTEMBER 1st.

The Exhibition Patch is always interesting. In it this year will be found most of those that attracted special attention at the large shows last year. In our trial grounds many of the newer sorts will be found.

The Maryland Dahlia Society is also conducting a trial ground in connection with our own, so that many of the 1929 introductions will be brought in one field giving an opportunity for comparison. Judging of these will take place late in September.
